

Organic Rosehip Lipsticks

Organic Rosehip Lipsticks contain no harmful chemicals. They are formulated from the purest and highest quality ingredients, which are rich in vitamins & nutrients. These lipsticks nourish your lips and will not harm you if digested. Have a beautiful smile with 12 organic lipstick colours to choose from. **PROVEN TO CONTAIN NO LEAD!**

Is your lipstick killing you softly? Every day women are putting their lives at risk by using dangerous chemicals in the endeavour to look beautiful. Most women would be horrified to know that 17 commonly used ingredients in today's average lipsticks are potential carcinogens. Adding to this, the average woman puts on 8 to 12kg of lipstick over her lifetime which becomes an issue for serious concern.

Organic Rosehip Skincare has 11 exclusive lipstick colours including 1 lip balm. Lipsticks are available in skin colour tones, pink tones, brown tones, red tones and orange tones.

Directions: Apply the lipstick, then moisten your lips with your tongue. This will set your lipstick and give a smooth and brighter look. Be creative by blending any lipsticks to achieve the colour of your choice. All lipsticks can also be used as blushers.

Ingredients: Organic castor oil, organic castor was, Australian macadamia wax, organic candellila wax, organic carnauba wax, organic jojoba wax, organic rosehip seed oil, meadow foam oil, natural vitamin e, iron oxides, mica, organic rosehip oil, ylang ylang 1st grade, organic vanilla.
